### How auto-deduct works

- 🔔

**3 DAYS BEFORE**  
**Advance notice sent**  
You receive an email + WhatsApp reminder showing the exact amount that will be deducted, with a breakdown of active modules.
- 🗳️

**BILLING DAY**  
**Auto-charge via Razorpay**  
Razorpay securely charges your saved card on the 1st of each month at midnight IST. No manual action needed.
- ✅

**IMMEDIATELY AFTER**  
**Receipt & invoice issued**  
A GST-compliant invoice (with your company GSTIN) is generated and emailed to your registered address. Download anytime from Billing History.
- 🔄

**IF PAYMENT FAILS**  
**Automatic retry (3 attempts)**  
If your card is declined, the system retries at 6h, 24h, and 72h. You get notified after each attempt. Access remains active during retries.
- ⚠️

**AFTER 3 FAILURES**  
**Grace period — 7 days**  
If all retries fail, a 7-day grace period begins. Your data and access are fully preserved. Update your payment method to avoid suspension.
