Pricing & Licensing Design

SaaS (Cloud) · On-Premise

ERP Products · Module Marketplace · Subscription & License Model

Version 2.0 · May 2026

■ SaaS — Cloud	■ On-Premise
• Hosted on SwachERP cloud servers	• Installed on customer's own server
• Buy by ERP product type (not generic tiers)	• Buy ERP product license (one-time)
• Add individual modules from marketplace	• Add individual modules (one-time each)
• Monthly or Annual subscription	• Annual AMC = updates + support
• Automatic updates, no IT team needed	• Full data control, works offline on LAN
• Scale modules up/down anytime	• License is perpetual — AMC is optional

Three Core Pillars of the Pricing Model

PILLAR 1 ERP Product	PILLAR 2 Module Marketplace	PILLAR 3 Subscription / License
Which industry ERP you are buying	Individual feature modules added on top	SaaS recurring OR On-Prem one-time + AMC

■ SaaS — Cloud Model

Buy by ERP product type · Add modules from marketplace · Monthly or Annual subscription

PILLAR 1 — ERP Products (What You Buy)

Customers buy a specific ERP product — not a generic plan. Each product is priced for that industry. Core modules (Invoicing, Users, Company Settings, WhatsApp) are included in every product.

ERP Product	Who It's For	Monthly	Annual (2 mo free)	Core Modules Included
Full ERP	All industries, large businesses	■9,999	■99,990	All modules: Production, Accounting, HR, CRM, POS, All Verticals, API Hub, Audit Trail
