

SwachERP

Navigation & Public Route Test Report

Razorpay Approval — Public Page Verification

Report Date: 06 May 2026

Tested By: Automated E2E Test Suite

Test Summary

6

PASSED

0

FAILED

6

TOTAL

ALL TESTS PASSED

Test Scope

- Products text link navigates to /features (no login required)
- Products dropdown opens and shows all module groups
- Solutions text link navigates to /solutions (no login required)
- Solutions dropdown shows BY ROLE / BY INDUSTRY / BY SCALE sections
- /pricing page loads without authentication redirect
- Footer Company links use real routes (/pricing, /solutions) — not #hash anchors

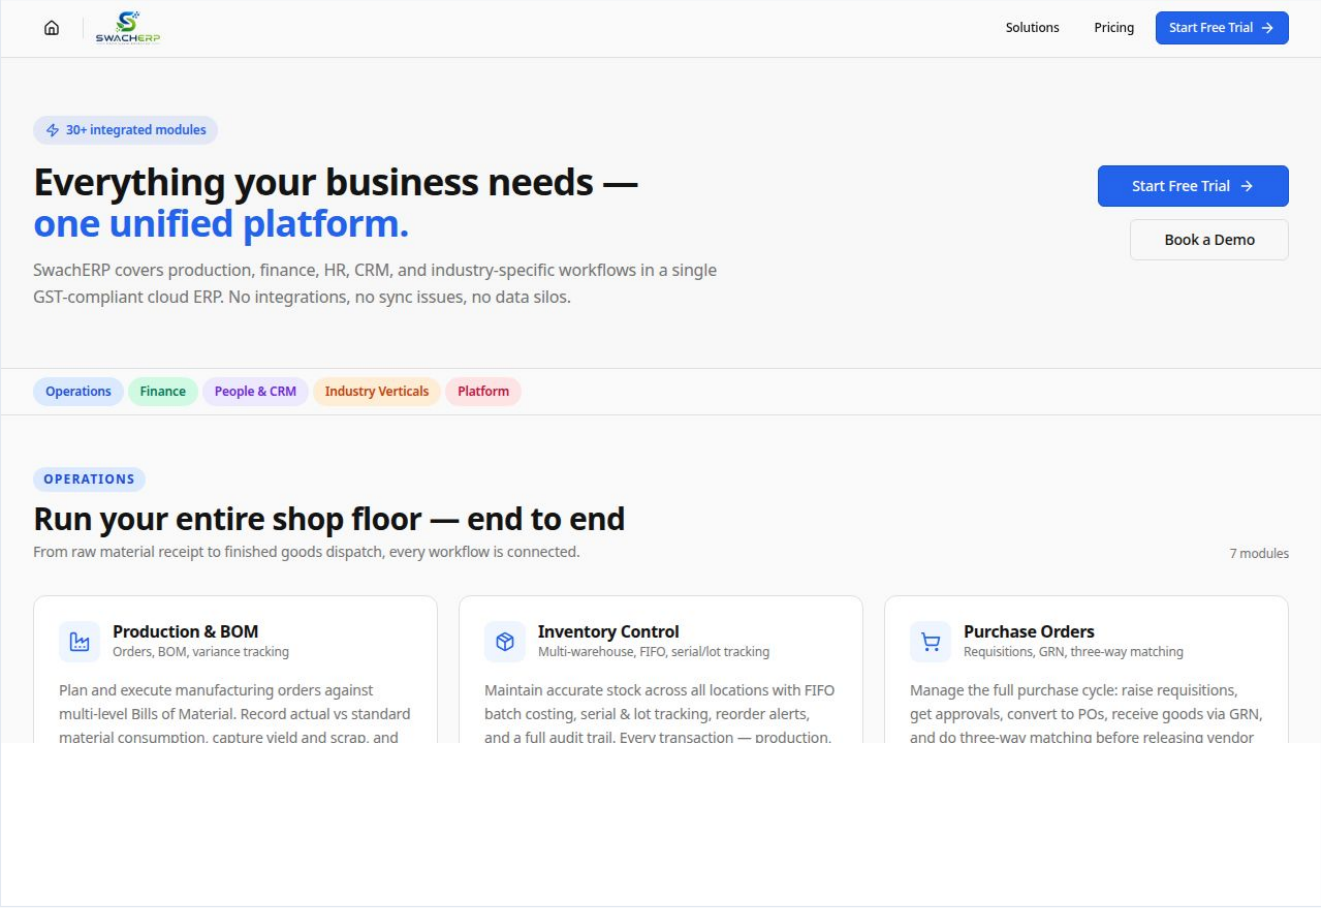

EXPECTED

Clicking "Products" text navigates to /features and shows "Everything your business needs" without login

ACTUAL RESULT

URL changed to /features. Heading "Everything your business needs" is visible. No login form appeared.

Screenshot captured during test execution:

Test 1 — /features page loaded without authentication

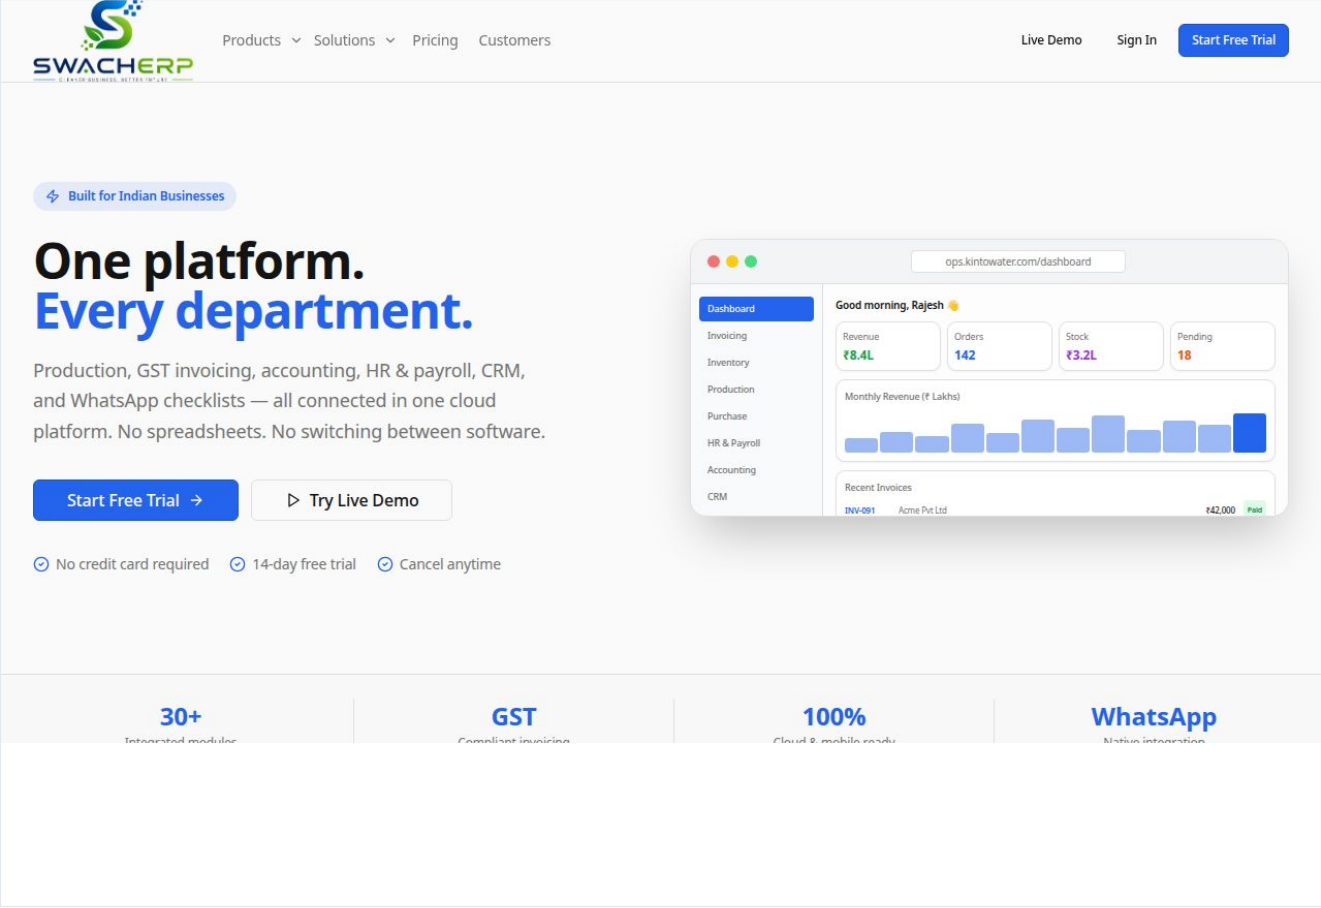

EXPECTED

Clicking the chevron next to "Products" opens a dropdown with groups like Operations, Finance and feature links

ACTUAL RESULT

Dropdown appeared with module groups (Operations, Finance) and feature links like "Production & BOM", "GST Invoicing".

Screenshot captured during test execution:

Test 2 — Homepage showing Products/Solutions nav (dropdown triggered during test)

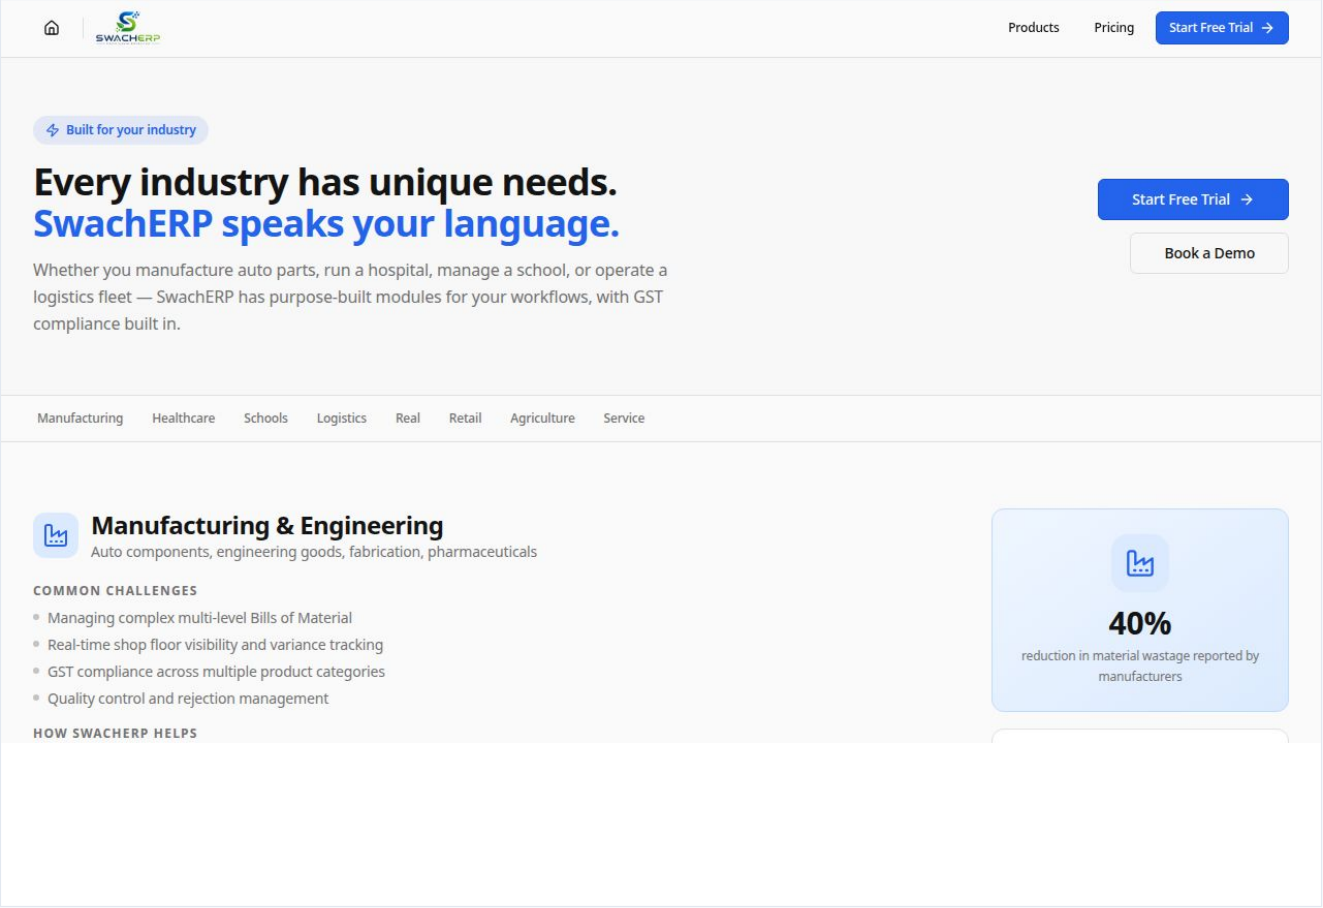

EXPECTED

Clicking "Solutions" text navigates to /solutions and shows "Every industry has unique needs" without login

ACTUAL RESULT

URL changed to /solutions. Heading "Every industry has unique needs" is visible. No login form appeared.

Screenshot captured during test execution:

Test 3 — /solutions page loaded without authentication

Test 4: Solutions chevron !' dropdown with BY ROLE / BY INDUSTRY / BY SCALE

PASS

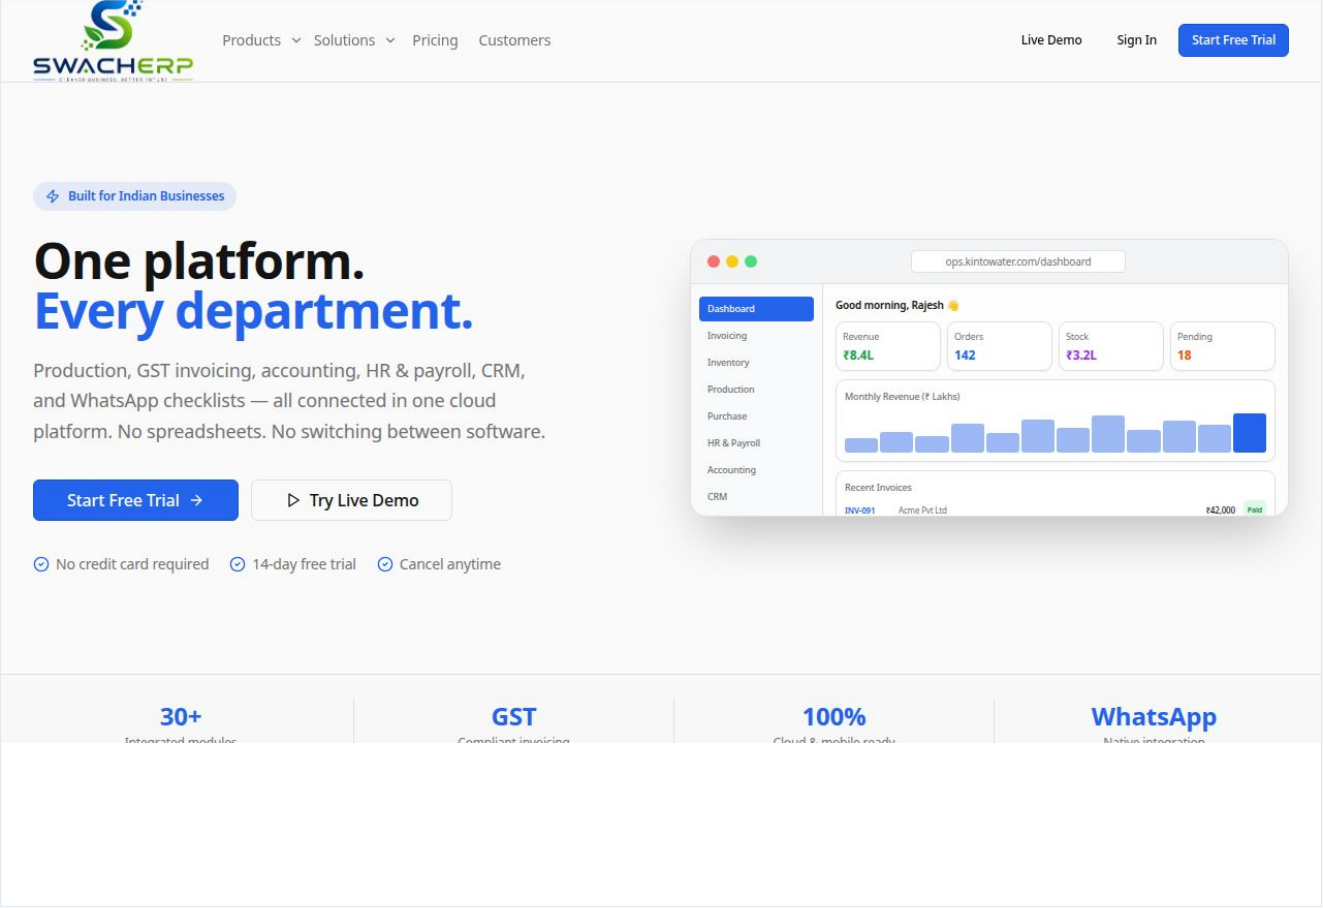

EXPECTED

Clicking the chevron next to "Solutions" opens a dropdown with BY ROLE, BY INDUSTRY, BY SCALE sections

ACTUAL RESULT

Dropdown appeared with "BY ROLE" (Owner/MD), "BY INDUSTRY" (Auto Components), "BY SCALE" (Growing SMEs) sections.

Screenshot captured during test execution:

Test 4 — Homepage showing Solutions nav (dropdown triggered during test)

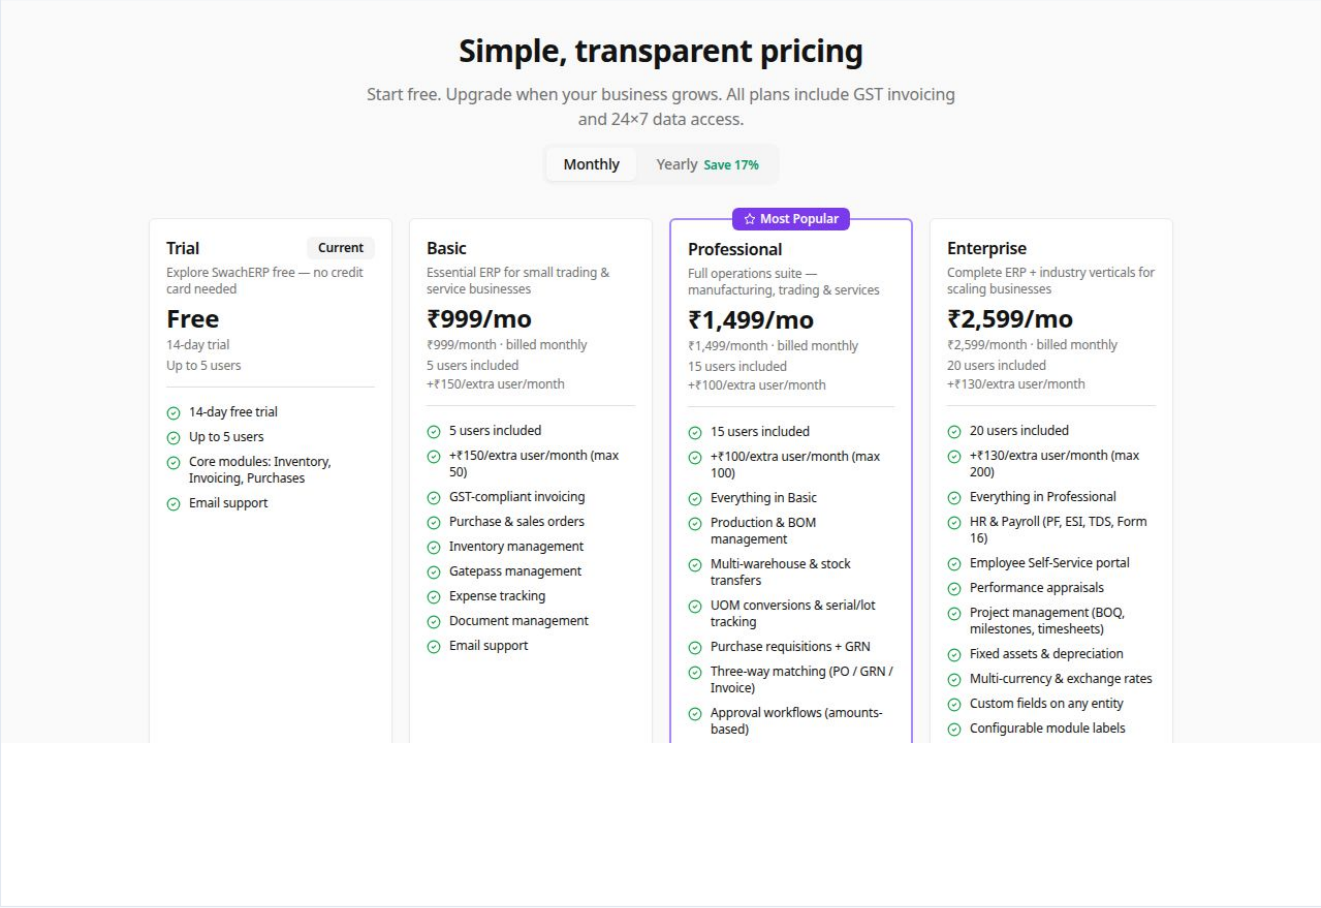

EXPECTED

Navigating directly to /pricing shows plan cards (Trial/Basic/ Professional/Enterprise) without redirecting to /auth

ACTUAL RESULT

Pricing page loaded with all 4 plan cards and ¹ prices visible. No redirect to /auth occurred.

Screenshot captured during test execution:

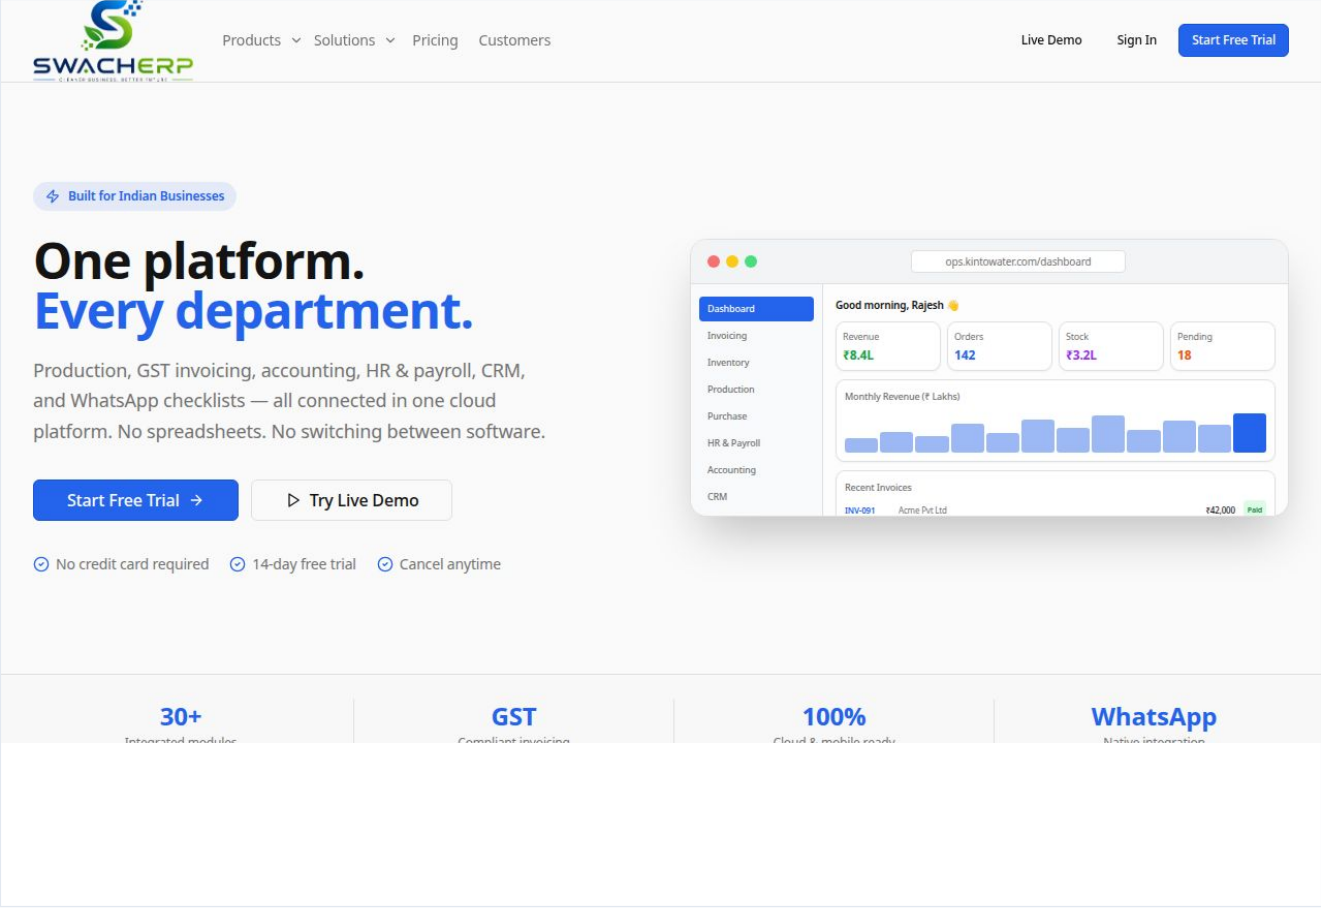

Test 5 — /pricing page with plan cards (Trial, Basic, Professional, Enterprise)

EXPECTED
Footer "Pricing" href="/pricing" and "Solutions" href="/solutions" (not #hash anchors). Clicking loads pages without auth.

ACTUAL RESULT
Footer Company section hrefs confirmed as /pricing and /solutions. Clicking "Pricing" in footer loaded /pricing without login redirect.

Screenshot captured during test execution:

Test 6 — Homepage showing header nav with correct Products/Solutions/Pricing/Customers links

All 6 Tests Passed — Ready for Razorpay Approval

All public navigation links on the SwachERP landing page are functioning correctly. The Products and Solutions dropdowns open properly. The /pricing page loads without requiring login. Footer links use real route hrefs (/pricing, /solutions) and not hash anchors. The platform is ready for Razorpay international payment approval review.
